

ATHLOS LEADERSHIP ACADEMY

School-Pass

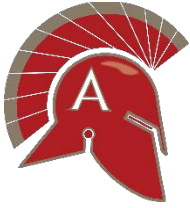

When does it start?

The School-Pass will start on the first day of school. If you already have your tag from a previous year, stop by the school office to confirm it will still work in the system. The program is only intended for parents who pick-up their students on a daily basis. If you are picking up your student and don't participate in the School-Pass program, you will need to park your car and come into the building.

When can I pick up my School-Pass tag and login information?

Staff will be available during our welcome nights and you will be able to pick up your School-Pass tag and login information. We will also be able to answer any questions you might have during this time. If you have not stopped in to pick up your School Pass information after the welcome nights, please contact the school office for more information.

Attached you will also find more information about the School-Pass program as well as a traffic flow map. Please make note of where you will enter and exit the school property. For more information, please visit our school website (www.athlosbrooklynpark.org) and click on the Parent Resources link under Parents in the main navigation.

Product FAQ

Why do schools use the School-Pass™ system?

The School-Pass™ system, specifically designed for PK-12 schools, increases campus security, student safety, reduces parent wait time, and improves the school's overall dismissal operations, including daily parent pickup changes.

How does the system work during afternoon parent pick-up?

When you arrive on the school campus for afternoon parent pick-up, the School-Pass™ system reads your registered *School-Pass* tag. If the tag is verified in School-Pass™, teachers (accessing the system inside the classroom) are notified that you have arrived and schedules the dismissal of your child based on your ETA in the pickup area. Your tag is read once more by an exit reader as you leave the pickup area.

How secure will School-Pass™ data be?

The *School-Pass*™ server and data are installed locally at the school (behind the school's firewall). Access to the website is granted via username/password credentials only. No parent or student data is stored on your tag(s).

Who do I contact with specific questions?

Please feel free to contact the school with any questions regarding the new system.
